Reading

This week in reading we... introduced read to someone. The students have been working hard on reading independently, but now they will also have the opportunity to share their books with their partners. SO far we have introduced reading the same book simultaneously.

Writing

This week in writing we... finished our first unit in personal narrative stories. Throughout this unit the students have grown into writers from thinking of an idea and transforming it into a story with a detailed picture, labels, and words at the bottom. They have already made huge growth. Stay posted to Dojo for an addition to their portfolio.

Math

This week in math we...wrapped up unit one. The students reviewed for and took their first kindergarten test. We are now moving into unit two and are beginning to look at numbers as groups. The focus right now is that numbers higher than 5 can be a group of 5 and some extra ones.
