

# KINDERGARTEN HAPPENINGS

2017

## What a fun week it was!!!

We're back! The kids have done very well adjusting back to our routines. Thank you for all you do on your end to make this an easier transition. It's not easy. Here are the refreshed rules that they brainstormed.

## Important Dates

- 1/23 Culver's Night

## LETTER OF THE WEEK

V

## Sight Words

- what
- it

## Reading

This week in reading we... reviewed our procedures for reading workshop. Areas that were reviewed were:

- Respectful Reading
- Reading Stamina
- 3 Ways to Read a Book
- Reading Helpers (animal friends)

## Writing

This week in writing we... started our unit on personal narratives. The students are creating small moment (one moment) stories that they split over three pages. We return to this unit in the winter because the students have grown to the point where they are able to produce pieces that are more in-depth than in the fall.

## Math

This week in math we... continued with unit 3. We are looking at addition, subtraction, groups of 10 in teen numbers, and groups of 5. This week the students also worked on combining shapes to make larger shapes. They even had a chance to make shape robots!
